Overview

The Green Lion Solar X Power Bank is a versatile and powerful portable charger, designed to keep your devices powered on the go. Featuring built-in cables, solar charging support, and a digital display, it offers multiple outputs including USB-C and USB-A for fast and efficient charging. The integrated flashlight provides additional convenience, while the durable design with a collapsible handle ensures easy portability. With a massive capacity, it's ideal for long journeys and outdoor adventures.

Package Contents

Specifications

Model No.	GL-PX50
Material	ABS+PC
Battery Capacity	60000mAh
Solar Power Input	5V
USB-C Input	5V/3A, 9V/2A, 12V/1.5A (PD18W)
USB-Micro Input	5V/2A
USB-Lightning Input	5V/2A
USB-C Port Output	5V/3A, 9V/2.2A, 12V/1.67A (PD20W)
USB-A1 Output	4.5V/5A, 5V/3A, 9V/2A, 12V/1.5A (22.5W Max)
USB-A2/A3/A4 Output	5V/2A
USB-C Cable Output	5V/3A, 9V/2.2A, 12V/1.67A (PD20W)
Lightning Cable Output	5V/2A
Solar Panels	55*105 mm
Light Modes	Flash-SOS
Product Weight	1148g
Product Dimensions	78*71.5*149 mm

Power Display Description

The four-speed digital display provides easy control of the power bank's charge level.

When charging externally, the digital display gradually progresses through the four stages. When all four segments of the display turn off, it indicates that the power bank needs to be recharged.

Safety Instructions

1. If the device is not used for an extended period, please charge the battery at least once every 3 months.
2. The device may become slightly warm during use, but it is normal for the hands to remain cool.
3. Keep the product dry and avoid using chemical cleaning agents.
4. Dispose of the device responsibly, ensuring proper recycling and disposal according to designated guidelines.
5. Keep the device away from children or individuals who are unable to use it safely. Adult supervision is required.
6. Do not immerse, disassemble, or expose the device to water, damp environments, or excessive pressure.
7. Only connect the device to the specified DC power supply that meets the required output parameters to avoid potential malfunctions or fires.

Troubleshoot

- A.** When the mobile power supply cannot be charged:
1. Please check if the power adapter is suitable and if the connecting cable and adapter are functioning properly.
 2. It is recommended to choose a compatible power adapter for charging.

B. When the mobile power supply cannot charge other devices:

1. If the battery level of the mobile power supply is too low, recharge it.

2. The voltage of the charged device may not be compatible with the output voltage of the mobile power supply. Please check the charging voltage of the device being charged.

3. Verify the connection method between the charged device and the mobile power supply, and ensure the cable and adapter are functioning properly.

4. If there is an internal circuit malfunction in the mobile power supply, please contact the local dealer's after-sales service department.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.

For more info, please check:
