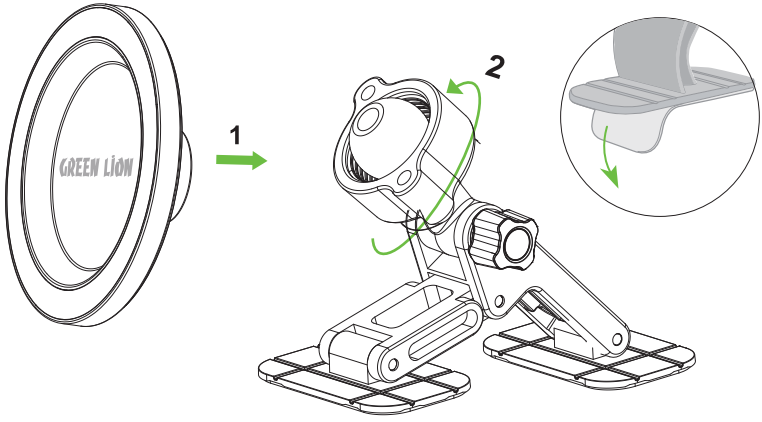
Product Features

1.Designed for a variety of mount sizes, ensuring greater compatibility.
2.Strong magnetic force that securely holds your phone in place.
3.Compatible with all 7-4 inch mobile phones.
4.360-degree rotation for flexible viewing angles.
5.One-handed operation for easy installation, with no tools required.

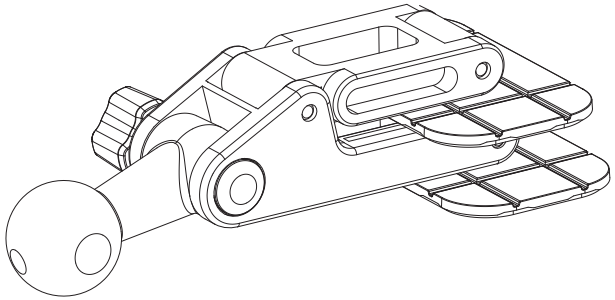
Accessories



1. Magnetic Mount Base:
This is the base component that attaches securely to a flat surface. It uses a strong magnetic force to hold the phone mount in place

2. Adjustable Phone Holder:
This part features an adjustable mechanism that holds the phone, allowing it to rotate and move. It is designed for easy positioning and stability.

Folding Tips

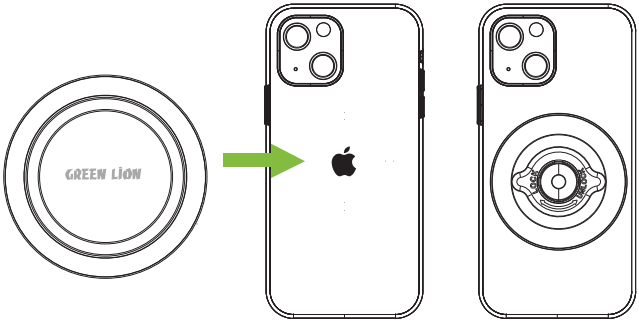


Note: The 3M adhesive achieves its maximum effectiveness 48 hours after application. To ensure durability, it is recommended not to use the mount immediately after applying the adhesive.

1. Works with MagSafe® Compatible Devices

Process:

Ensure that your device is MagSafe® compatible (iPhone 12 or later).
Place the magnetic mount onto the back of your phone.
The MagSafe® magnets will automatically align, securely attaching the device to your phone without the need for any extra effort.
Once attached, you can use your phone with confidence, knowing it's held in place by the magnetic connection



2. With Snap Adapter Applied to iPhone 12 & Later

Process:

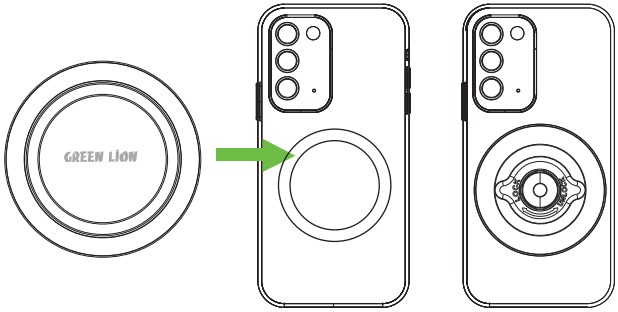
If your phone is not already MagSafe® compatible (iPhone 11 or earlier), use the Snap Adapter.

Place the Snap Adapter on the back of your iPhone, aligning it with the phone's center.

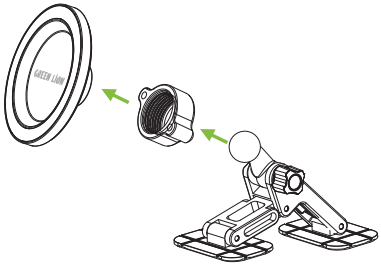
Ensure the adapter is firmly attached by pressing down gently.

Now, place the magnetic device on top of the Snap Adapter, and it will magnetically attach to your phone.

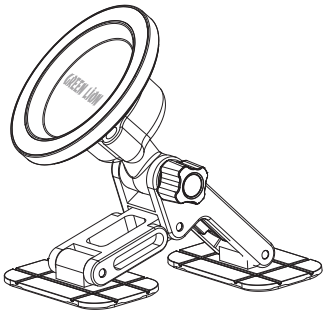
The adapter provides a secure magnetic connection, similar to the one MagSafe® offers on newer models.



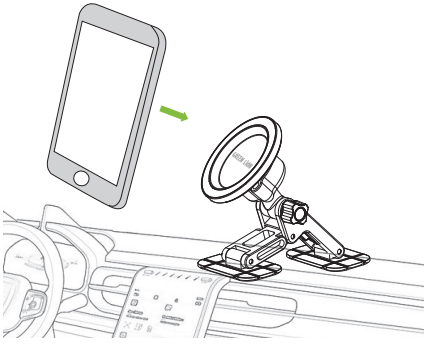
Instructions



1.Insert the adjuster into the ball joint of the phone mount, place the ball into the socket at the back of the magnet head, and turn the adjuster to tighten



2.Place the phone mount onto the platform and tighten to lock it in place.



3.Put the phone on the magnet head, and adjust it to your best viewing angle.

NOTE:

Do not place credit cards, security badges, passports, or key fobs between your iPhone and the magnetic mount, as this may damage the magnetic strips or RFID chips in those items. If you use a case that holds any of these sensitive items, remove them and make sure they aren't between the back of your device and the mount.

Specifications

Model No	GX-44
Material	Aluminum Alloy+ABS+PC
Magnets	N20*52 pcs
Magnetic Force	2 kg
Product Weight	103.5g
Product Dimension	55*95 mm

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **https://www.greenlion.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
