Product Overview

The Green Lion Beam Light Rechargeable Head Lamp is a versatile, high-performance lighting solution designed for outdoor and work use. It offers 4.5 hours of continuous use with a 350 lm brightness and a beam distance of up to 200 meters. The lamp features adjustable angles and dual lighting modes for optimal visibility, while the telescopic beam adjustment allows you to switch between a broad coverage or a focused long-distance beam. Built with an aluminum lamp head and an adjustable head strap, it ensures durability and comfort. The headlamp also supports Type-C charging for added convenience.

Specifications

Model No	GL-FL10
Battery Capacity	1800mAh
Input	5V/1A
Power	10W
Working Time	3.5H (High Mode), 4.5H (Low Mode)
Brightness	180LM (Low Mode), 350LM (High Mode)
IP Protection	IP64 Dust & Splash Resistant
Product Weight	140g
Product Dimensions	44*58*90mm

Product Features

1. The product has a novel appearance and is equipped with a high-brightness LED lamp head with a built-in lens that can be rotated to adjust the spotlight size .
2. With a capacity of about 1800 mAh .
3. The product comes with a push button switch .
4. The product has automatic power-off and green light prompt functions when it is fully charged. The indicator light is red when the product is charging, and automatically turns green when the product is fully charged, eliminating the need for manual attention to charging time.
5. The product has overcharge, over-discharge, overcurrent, and load short-circuit protection, and accurately detects the charging voltage to ensure charging safety.

Setup Guide

1. For first use, please charge the product for 1 hour.
2. When charging, first turn the light off by pressing the button , then insert the 5V charger's Type-C plug into the product's Type-C input socket. At this time, the charging indicator on the product will be red. When the red indicator on the product turns green, it means the product is fully charged. The product charging time is about 2.5 hours.
3. Conventional usage: After wearing the product, short press the power switch button. The first press turns on the product's strong light mode, the second press turns on the product's weak light mode, the third press turns on the product's flash mode, and the fourth press turns off the product light. During the use of the product, long press the product switch to infinitely adjust the light brightness. The long press time is about three seconds.

4. Rotate to adjust the aperture size: When using the product for lighting, the radius of the LED light's emitted aperture is adjusted according to the length of the product's lamp head rotation handle. The direction of rotation is clockwise and outward. The longer the product's lamp head, the smaller the radius of the aperture.
5. Product lighting off function: short press the button to adjust the light to off state.

Safety Precautions

1. power charger or a 5V Type-C port on a computer or mobile power bank to charge this product . Do not use a charger with too low or too high voltage for charging.
2. When the product is working, do not expose it to eyes directly or for a long time, so as to avoid temporary blindness or irreversible damage to eyesight .
3. After using the product , turn the button switch to turn off the light.
4. The lighting brightness is obviously dim or the LED light is off during use , it means that the battery power is almost exhausted. Please stop using the product and charge it in time. Otherwise, when the lithium battery voltage is lower than 2.8V, the low voltage protection function of the product will cause the product to enter the protection state and become unable to work. In this case, it must be charged before use.
5. This product is prohibited from being cleaned with water. If there are mosquito debris on the focusing lens , please turn off the function switch and wipe it with a rag . Do not rinse with water to prevent short circuit.
6. Please do not hit the product with other hard objects or squeeze it to avoid damaging it .
7. This headlamp is suitable for indoor and outdoor use . It is strictly prohibited to use it as lighting or wear it for diving.

8. The built-in battery of the product is prohibited from being disassembled, impacted, squeezed or thrown into fire. If the battery is severely swollen, do not use it. Do not place the battery in a high temperature environment.

9. The built-in rechargeable battery in this product contains substances that may pollute the environment. Before discarding the product, turn off the power , remove all screws on the back cover with a screwdriver, remove the back cover, unplug the battery terminals from the PCB, and remove the battery. The battery should be handed over to a waste recycling point for disposal .

10. When charging this product, please use the original charging cable provided with this product. If you use a fast charging cable or a non-original charging cable, the current will be too large and may damage this product.

11. Please operate strictly according to the requirements and precautions of the instructions, and do not disassemble it at will. The company does not assume any responsibility for any adverse consequences caused by illegal operation. Warning! Due to the high brightness, avoid direct exposure to eyes. Keep this product away from children and do not use it without adult supervision. If any abnormality occurs during use, please stop using it immediately.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.greenlion.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
