## Product Overview

The Foldable Multifunctional Mosquito Killing Racket is a versatile and compact tool designed to eliminate mosquitoes effectively. With a powerful 2W output, it operates on a 1500mAh battery and supports an output voltage of 2800V. Made from durable ABS material, the racket is easy to fold and unfold, with a wide surface when expanded and a compact size when folded. It comes with a mosquito swatter, a cable for charging, and a user manual for easy operation.

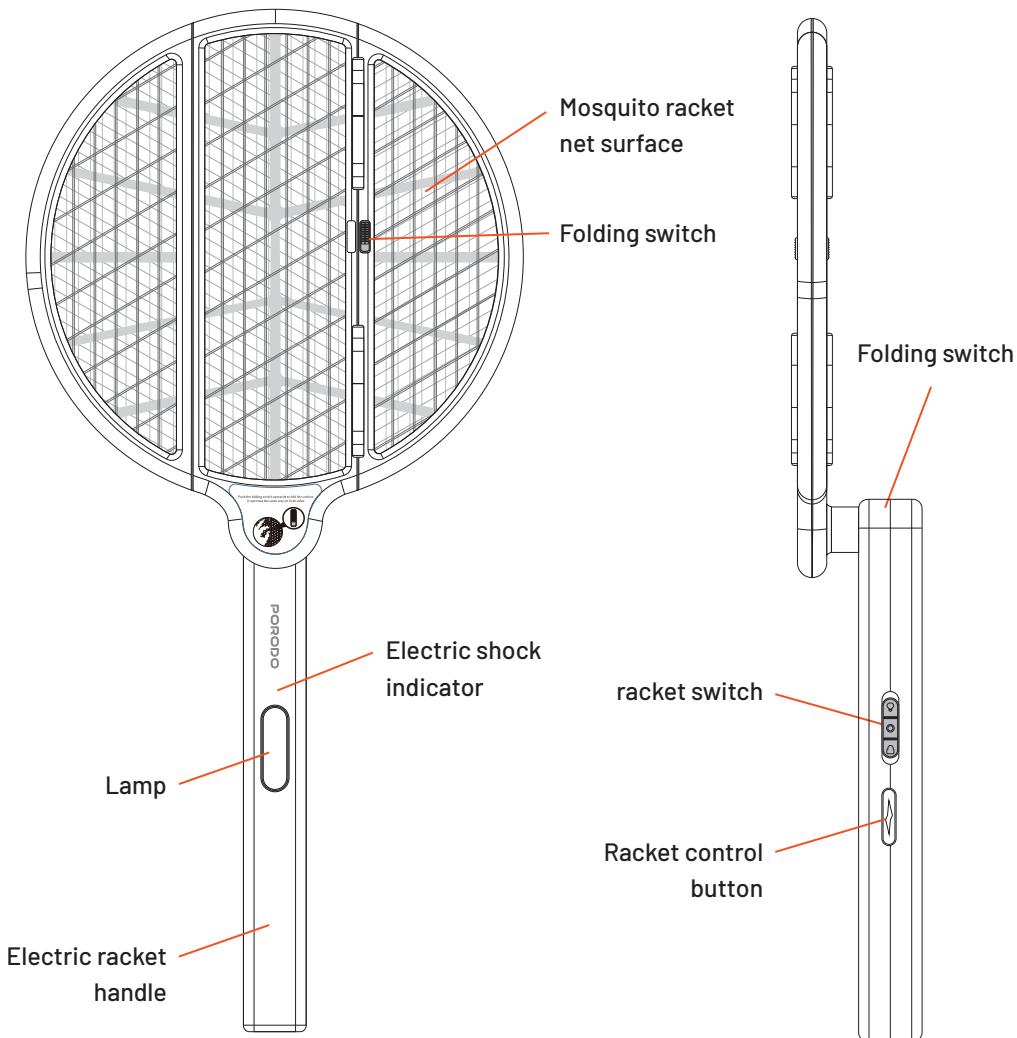

## Specifications

Input	DC 5V/1A
Power	2W
Battery Capacity	1500mAh
Voltage Output	2800V
Charging Interface	USB-C
Material	ABS
Product Weight	340g
Product Size	60 x 285 x 480mm (Unfolded), 75 x 88 x 265mm (Folded)

Model Number

PDLFSTLTZ01

## Schematic View

## Usage Instructions

### 1. Switch Off by Default

The device is turned off by default for safety before delivery. The mosquito control function is disabled. Ensure the switch is turned off when the device is not in use.

### 2. Activating the Electric Shock Control

- a. Push the switch up to the "standby" position.
- b. Press the mosquito control button (- c. The electric shock indicator will light up, signaling high voltage on the metal net. Do not touch the metal net while it's active.
- d. Wave the device near mosquitoes to make contact.
- e. Release the mosquito control button to deactivate the shock function, causing the electric shock indicator to turn off.

### 3. Turning On the Grain Trap Light

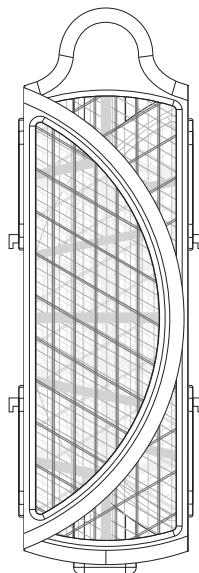

- a. Push the switch to the top to turn on the device.
- b. The grain trap light will illuminate, and the electric shock indicator will remain on.
- c. Caution: High voltage will be present on the metal wire. Do not touch the metal wire during this time.

## Charging Instructions

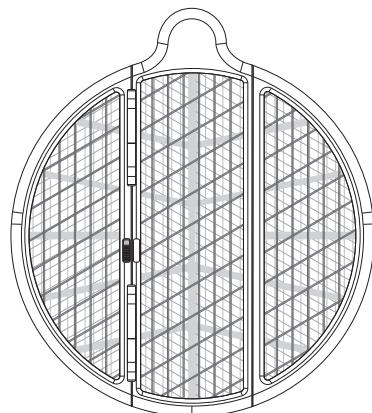

When charging, the charging indicator light is red, and when fully charged, the charging indicator light is green.

## Usage scenarios

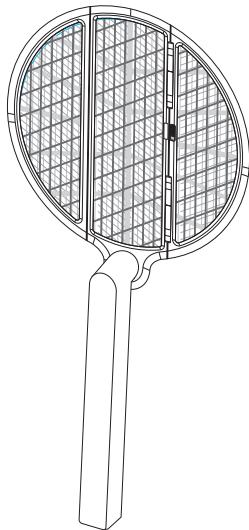

1. Storage Mode: The mosquito killing racket is folded and stored in its shutdown state.

2. Active Use: The mosquito trap is actively trapping and killing mosquitoes at night.

**3. Electric Mode:** The mosquito swatter is held in hand, operating in electric mosquito-zapping mode.

## Safety Precautions

- 1. Electric Shock Risk:** High voltage may be generated on the metal mesh surface during use. Keep away from children, the elderly, and pets. Also, avoid storing in high temperatures to prevent electric shock.
- 2. Environment:** Not suitable for barns, livestock sheds, gas stations, or places with explosive dust or gases.
- 3. Avoid Sparks:** Do not use in areas with flammable or explosive gases, liquids, or dangerous chemicals. Keep away from metal objects like keys and spoons that could cause sparks.
- 4. Cleaning:** After use, turn off the device and clean the metal mesh with a small brush. Avoid using wet towels or paper towels, and do not wash with water to prevent short circuits.
- 5. Moisture:** Keep the device dry. In humid weather, the swatter may lose effectiveness due to moisture absorption. Dry with a hairdryer or place in the sun to avoid damage to internal components.

- 6. Battery Life:** If mosquito-killing effectiveness decreases, check the product's battery. Low voltage may impact performance and battery life. Recharge regularly.
- 7. Storage:** Avoid touching the metal mesh surface with hands or metal objects. When not in use, store in a dry, ventilated area to prevent moisture buildup.
- 8. Long-Term Storage:** If not used for extended periods, recharge the device every 2 months and store it in a dry location to avoid moisture.
- 9. Handling:** Do not use the racket to hit hard objects, as this can cause deformation and damage to the metal mesh surface. Always protect the mesh surface when not in use.

## FCC Statement

- 1.** This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
  - (1)** This device may not cause harmful interference; and
  - (2)** This device must accept any interference received, including interference that may cause undesired operation.
- 2.** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try

to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for assistance.

**RF warning statement:**

The device has been evaluated to meet general RF exposure requirements.

The device can be used in portable exposure conditions without restriction.

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.porodo.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.

For more info, please check:
