Product Overview

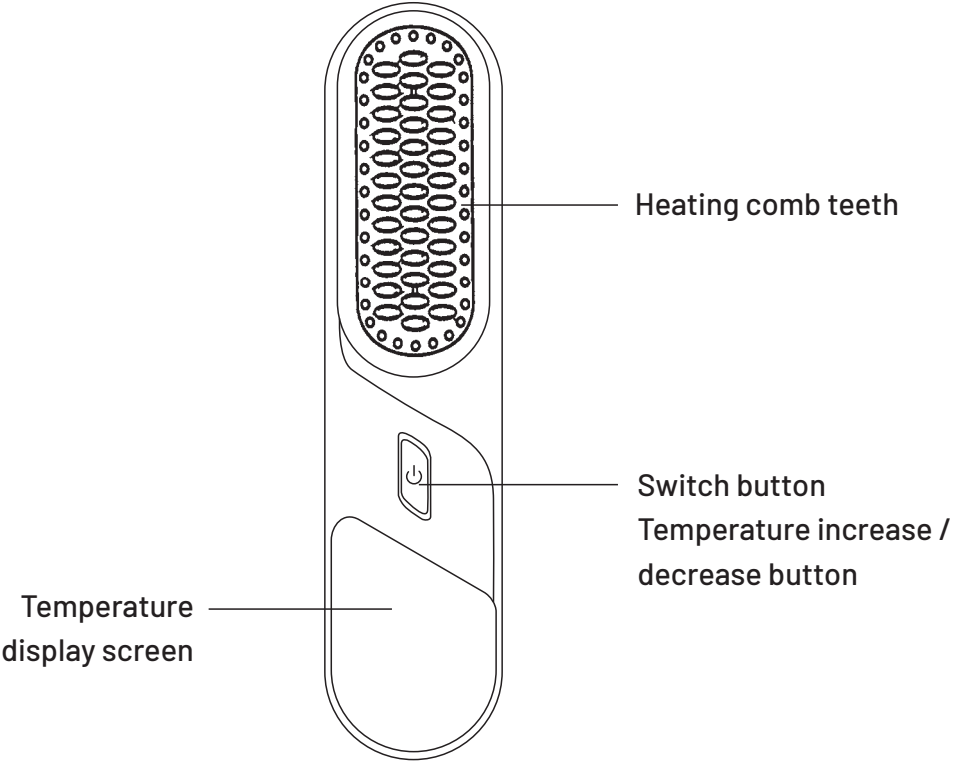

The Porodo Cordless Straightening Comb is a versatile and convenient styling tool designed for quick and easy hair straightening. It features smooth ceramic teeth that glide effortlessly through your hair, providing a sleek and shiny finish. With four adjustable temperature levels, it allows you to customize the heat setting according to your hair type and desired results. The fast PTC heating technology ensures rapid styling, while the USB-C fast charging feature provides quick and efficient power-up. For added safety, the comb includes an auto shut-off function to prevent overheating, making it a reliable tool for on-the-go styling. Its cordless design adds further flexibility, allowing you to style your hair anywhere, without the hassle of tangled cords.

Specifications

Input	5V/1A
Battery Capacity	4000mAh
Rated Power	35W
Working Time	40 Minutes
Recharge Time	4H
Charging Interface	Type-C

Temperature Range	140°C ~ 220°C
Product Size	32 x 46.5 x 210mm
Product Weight	214g
Model Number	PDLFSTJN106

Safety Precautions

- 1.** Ensure the product is used under the rated voltage to avoid electric shock and personal injury.
- 2.** Not recommended for individuals who are insensitive to heat, as it may cause burns or scalds.
- 3.** Always unplug the power plug in the following situations to prevent accidents or injury:
 - a.** When not in use
 - b.** When the product malfunctions
 - c.** Before cleaning
 - d.** After each use
- 4.** Avoid touching the power supply or using the product with wet hands to prevent burns or scalds.
- 5.** If the product falls into water, immediately unplug the power.
- 6.** Keep the appliance away from water sources such as bathtubs, showers, or containers with water.
- 7.** Regularly inspect the power cord. If the plug, power cord, or product is damaged, do not use it to avoid electric shock, fire, and other hazards.
- 8.** If the product is deformed or damaged, stop using it immediately to prevent further risks.
- 9.** In case the power cord is damaged, contact the manufacturer's maintenance department or professional personnel for a replacement.
- 10.** Do not use the product near flammable, explosive, corrosive, or harmful substances such as alcohol, gasoline, nail remover, spray, etc., as they may cause fire or explosion.
- 11.** Avoid dropping or knocking the product. If damaged from a fall or collision, do not use it again.
- 12.** Never pull the power cord directly when unplugging the product. Always handle the plug, not the cord.

- 13.** Do not store the product in a humid environment.
- 14.** Turn off and cool the product after use, and avoid suspending it with any object during use.
- 15.** The splint surface of the product can reach up to 230°C. Never place it on soft cushions or blankets when it's still hot.
- 16.** Avoid touching the comb teeth while the product is powered on to prevent burns. Keep your hands, hair, and eyes away from the hot parts.
- 17.** Do not use the product if your hair has flammable substances, such as styling mousse or hairspray, as they may combust when exposed to the hot comb.
- 18.** This product is designed for use only on dry natural hair, not artificial hair.
- 19.** It is not suitable for individuals with physical, sensory, or mental impairments, or those without experience and knowledge, such as children with mental illness, unless supervised by a responsible adult.
- 20.** Always use the product for its intended purpose and ensure children cannot access it or touch it during use.
- 21.** Keep packaging materials, such as plastic bags, out of reach of children to avoid potential choking hazards.
- 22.** This product is not intended for use on pet hair.

Usage Instructions

1. Power On/Off: To turn the device on, press and hold the power button for 3 seconds. The default temperature is 140°C. To turn it off, press and hold the power button again.

Negative Ion Function: To activate the negative ion function, press and hold the power button for 3 seconds while the device is on.

2. Gear Adjustment: The device has 4 temperature settings. To adjust the temperature, press the temperature increase button to cycle through the

following settings: 140°C, 160°C, 180°C, and 220°C. Press the temperature decrease button to decrease the temperature setting.

3. Automatic Shutdown & Charging: The device will automatically shut off after 15 minutes of use. If the temperature is changed during operation, the timer will not reset.

4. Charging Information: The product cannot be turned on or used during charging. The switch light will flash while charging, and it will remain on for a long time once fully charged.

Usage Guidelines

1. Prepare Hair

Wash and dry your hair. Avoid using any spray or styling agent.

2. Adjust Temperature

Press and hold the power button to adjust the temperature to your desired setting.

3. Hair Styling

Wait a few seconds for the device to reach the right temperature. Take a small section of hair and glide the device from root to tip. Do not pause in the middle to avoid overheating. Allow the hair to cool naturally before touching it again to maintain the shape.

4. Apply to All Hair

Repeat the above steps for all sections of hair. After styling, use a suitable product to finish the look.

5. Post-Use Care

Turn off the device after use. Once it cools down, store it in a cool, dry place.

Charging Instructions

1. Turn off the power and wait for the machine to cool down before charging.
2. Connect the Type-C charging cable to the device. During charging, the charging icon will flash. Once fully charged, the charging icon will remain solid.
3. Unplug the power once fully charged before using the device.

Material Content

Part name	Hazardous Substances					
	lead	mercury	cadmium	Hexavalent chromium	Polybrominated biphenyl	Polybrominated diphenyl ether
Plastic Parts	X	○	○	○	○	○
Heating comb	○	○	○	○	○	X
Power Cord	X	○	○	○	○	○
Packaging and Stickers	X	○	○	○	○	○

This form is prepared in accordance with SJ/T 113640: Indicates that the content of the hazardous substance in all homogeneous materials of the component is in accordance with GB / t26572 The specified limit is below. 10: Indicates that the content of the hazardous substance in at least one homogeneous material of the component exceeds limit requirements specified in GB / t26572. (The components of "X" show that the ring cannot be realized due to the limitations of current global technology and process level) The complete substitution of conservation substances or elements will be gradually improved with the improvement of science and technology.

Environmental protection service life of 10 years: it means that the harmful substances contained in the product will not be released if there is leakage or mutation, the user can make it normally under the conditions described in the product manual. When used, this product will not cause serious pollution to the environment or personal and property damage. Time limit for curing damage caused.

Arrow style sign: indicates that the product can be recycled. Beyond the service life or if it can't work normally after maintenance, it should be discarded. Please hand it over to the supervisor/Regulated recycling channels and enterprises qualified for the treatment of electronic products and waste electrical appliances. For the correct treatment, please refer to the national or local information on used electrical appliances Treatment regulations for sub products.

The above marks are in accordance with China's management measures for the restricted use of hazardous substances and supporting standard SJ/T 11364. This product will not cause harm to human body after long-term use. Please rest assured.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **<https://www.porodo.net/warranty>** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
